MOTOMETER

Universal adapter set nozzle holder / injector

MOTOMETER Universal adapter set nozzle holder / injector

In the world of engines, one of the most common causes of performance issues is a reduction in compression. A precise compression pressure test with the right tool is therefore essential for the maintenance of diesel engines. Our comprehensive Universal Adapter Set for injectors covers a large portion of modern engines and offers a modular system for easy detection and matching of the appropriate injector size.

Our adapter set is applicable to a variety of vehicles and machinery, including cars, trucks, buses, as well as agricultural and construction equipment.

Discover the solution for precise compression pressure testing and optimize the performance of your engines with our Universal Adapter Set for injectors. Do you have any questions or need advice? Feel free to contact us via our contact form: [Contact us now](#)
